

2012 Iowa Hospital Stroke Triage Designation

Levels of Stroke Care Capacity:

☐ Level 1: Primary Stroke Center (PSC)

A Level 1: Primary Stroke Center hospital must be certified as a Primary Stroke Center:

☐ Level 2: Stroke Capable Hospital

A Level 2: Stroke Capable Hospital is required to have all of the following attributes:

- Clot dissolving medicine, tissue plasminogen activator (rt-PA) available 24/7 for administration
- Staff trained in rt-PA administration
- CT scan of head, available for use and analysis within 60 minutes of patient arrival, 24/7
- Laboratory, and electrocardiogram (EKG) available for reading within 60 minutes of ordering, available 24/7
- Agreement(s) and processes are in place for transporting patients to a PSC
- Written stroke policies, procedures, standing acute stroke orders and protocol, and educational requirements are in place that follow the American Stroke Association guidelines
- Emergency physician or provider (physician assistant (PA) or nurse practitioner (NP) is available 24/7)

☐ Level 3: Triage and Transport (Non-Stroke Capable) Hospital

A Level 3: Triage and Transport hospital is expected to have:

- Written policies, procedures, standing orders, protocols, and appropriate educational requirements that follow the American Stroke Association guidelines for stabilization and transport
- Hospital assesses, stabilizes (if necessary), transfers stroke patients as soon as possible, and does not provide treatment. Hospital has necessary transport agreements with EMS
