- + **Mindfulness Meditation** is evidence-based treatment for chronic pain. It involves helping calming mind and body and learning to release the mental focus on pain that happens automatically. Research shows that mindfulness and meditation techniques work by changing how your brain responds to pain, thereby reducing pain intensity. Learning mindfulness and meditation can help you reduce your pain. Here are some resources to help you get started:

- + **Title: Pain Self-Management Courses**  
**Description:** Chronic Disease Self-Management (CDSM) and Chronic Pain Self-Management Program (CPSMP) are 6-week evidence-based group treatments that are led by a therapist or 2 certified peer co-leaders. Courses are not typically covered by insurance but may be embedded into closed-payer networks (e.g., Intermountain Healthcare or the VA Healthcare System). Additionally, many municipalities may offer self-management wellness courses through senior centers or other community services; the courses may be offered free of charge or fees may apply; be sure to check costs (if any). Self-management resources vary by region and community. To determine if self-management courses exist in your area:
  - + Check first with your healthcare system or insurance carrier.
  - + Google "Chronic Pain Self-Management" and your city to see if courses exist.
